TRAFFIC ADVISORY **QUEEN CITY AVENUE**

Westbound Queen City Avenue, just west of Harrison, Avenue will be reduced to one lane only until further notice due to a water main break. This restriction will be in place at least through today's evening rush hour.

The Cincinnati Water Works is working diligently to affect repairs to the water main and every effort is being made to minimize the length of time that this restriction is in place. The road will be reopened only after the water main is repaired and the roadway surface is made safe to drive on.

Motorists should consider alternate routes, especially during the evening rush hour and are advised to exercise caution and reduce their speed as they approach the work area.
